

## Course Description

### Coordination Unit for Service Course

31021	Arabic Language Communication Skills (Remedial)	Credit Hours: 0	Prerequisite: None
	This course aims to develop the student's cognitive abilities in the basics of Arabic through various chosen literary texts, followed by various topics, including some simplified grammatical issues. In addition, it focuses on the skill of writing, such as spelling, punctuation, and the use of the Arabic dictionary, which prepares the student to possess the necessary knowledge, reading, writing, listening, and conversation, on which the Arabic language communication skills course is based.		
31022	English Language Communication Skills (Remedial)	Credit Hours: 0	Prerequisite: None
	This course aims at developing the four skills (listening, reading, writing, and speaking) and enabling students to read the different texts and summarize them in their language as well as guessing the meaning of the word from the context and making predictions before reading for main ideas. Since this course is intended for students who need to improve in the English language, the focus is on giving students the structure of different sentences through grammar lessons, enabling the student to write correct sentences and thus speak without errors by constructing correct sentences when speaking. Regarding vocabulary, the students can find and use synonyms and context clues to find meaning.		
31100	Health & Sport	Credit Hours: 3	Prerequisite: None
	This course addresses physical education, how it relates to our general concept of education, and its objectives and historical development. Also, it examines the different fields and types of contemporary sports education. While studying human anatomy in detail, the course explains the effect of sports activity on different body parts and discusses the various elements that contribute to physical fitness. The course presents many tests designed to measure different aspects of physical fitness. The course deals with nutrition in terms of primary food groups, their roles in the human body, and the most common sports injuries and their symptoms. The course further covers many of today's diseases, such as obesity, anorexia, diabetes, and heart disease, concentrating on their causes and how to prevent them.		
31112	Arabic Language Communication Skills	Credit Hours: 3	Prerequisite: 31021
	This course addresses communication skills in Arabic (Reading, writing, listening, and speaking). It focuses on the applications that develop these skills through various basics and tools. The aim is to train students to read loudly and silently, comprehend what they listen to, deepen their abilities to write creatively and functionally and develop 'speaking' skills through debate, discussions, and critical thinking.		

31122	English Language Communication Skills	Credit Hours: 3	Prerequisite: 31022
	This course aims at developing students' ability in the four basic skills: (reading, writing, speaking, and listening). Practice will improve the student's use of English for academic purposes and communication. The speaking is intended to enable students to practice their oral skills and improve student's pronunciation. Thus, different speaking techniques are undertaken during classes throughout the semester.		
31130	Foreign Language	Credit Hours: 3	Prerequisite: None
	PSUT offers foreign languages such as Mandarin (Chinese) courses, Spanish, French, and other languages to catch up with language skills trends.
