

Articulation Plan for Master Degree in
Electrical Engineering for year 2019-2020

The compulsory subjects of the plan are distributed over the first and second semesters as shown below. As for the elective subjects, they are not specified neither distributed over the two semesters, and they are offered based on the students' choices in each semester.

First Semester		
Course Number	Course Title	Credit Hours
21701	Advanced Electronics	3
24705	Optimal Power Systems	3
31731	Engineering Analysis	3

Second Semester		
Course Number	Course Title	Credit Hours
20701	Seminar & Research Methodology	1
22701	Embedded Systems Design	3
23702	Digital Communications	3
