## BIOGRAPHY

Mohammad Sababheh is a professor of Mathematics working mainly in the field of Mathematical Analysis. Sababheh attended McGill University during 2003-2006 for his Ph.D. After that, he joined the University of Jordan as an assistant professor from September 2006 to January 2008, when he moved to PSUT. Sababheh has received several acknowledgments for his teaching quality; where he was awarded teaching awards from McGill University, Princess Sumaya University for Technology and the University of Sharjah. In his research, Sababheh authored several research papers in Harmonic analysis, Functional analysis and Operator theory; with emphasis on Operator and Functional inequalities. His research has been acknowledged to rank him in the top 2% best researchers in the world, according to the 2020 report that was conducted by researchers from Stanford University and Elsevier. Although teaching and research are the main concerns to him, Sababheh has served as the Head of the department of Sciences and Humanities during 2008-2011, and as the Dean of the School of Graduate studies and Scientific Research, during 2018-2020. Starting September 2020, he has been appointed as the associate vice president for administrative affairs in PSUT.
