📍 Lyon, Auvergne-Rhône-Alpes, France

📅 Date and place of birth : 26 September 1991, Irbid- Jordan

🏳️ Nationalities : French - Jordanian

Omar Qawasmeh is an expert in Artificial Intelligence who works at the intersection of Research and Development including academics, standardization, and business. Omar holds a Ph.D. in Semantic Web and Knowledge Engineering from the University of Lyon as well as a master's degree in Natural Language Processing and information extraction.

He worked as a Research and Development (R&D) engineer at Ecole des Mines de Saint-Étienne on projects related to the field of the semantic web. Moreover, he also actively contributed as an expert to the creation and dissemination of technical standards to the European Telecommunications Standards Institute (ETSI).

Omar has also worked extensively in the academic sphere by participating in the writing of published research articles, book chapters, posters, and demos in the fields of natural language processing and the Semantic Web. As a result of his research activities, his work is now cited more than 600 times.

EDUCATION

December 2016- September 2020	PhD in COMPUTER SCIENCE University of Lyon Thesis title : <i>"Towards A Collaborative Framework for Ontology Engineering : Impact on Ontology Evolution and Pitfalls in Ontology Networks and Versioned Ontologies"</i> Supervisors : Prof. Pierre Maret, Dr. Maxime Lefrançois, and Dr. Antoine Zimmermann
February 2014 - November 2016	MSc in COMPUTER SCIENCE Jordan University of Science and Technology Thesis title : <i>"Hybrid Approach for Events Extraction from Arabic Tweets"</i> Supervisor : Dr. Mohammad Al-Smadi
September 2009 - February 2014	BSc in COMPUTER SCIENCE Jordan University of Science and Technology Thesis title : <i>"Optical character recognition : A mobile application for capturing and managing medicines"</i> Supervisor : Dr. Mahmoud Al-Ayoub

WORKING EXPERIENCE

March 2022	[March 2023 -now] : Promoted to a Career manager Hybrid Intelligence, Capgemini Engineering, Lyon France. [January 2023 -now] : Promoted to a Senior AI and data engineer (research and development) Hybrid Intelligence, Capgemini Engineering, Lyon France. My work at Hybrid Intelligence includes, but is not limited to the following activities : 1. Applying Semantic web technologies in both research projects and clients' projects (e.g., Airbus, Schneider Electric). 2. Presales, where I participated in preparing and presenting presales proposals directly to the clients. [March 2022- January 2023] : Data scientist (research and development) Hybrid Intelligence, Capgemini Engineering, LYON France Permanent contract validated at the end of the first trial period.
September 2023	

January 2021 March 2022	<p>Data scientist (research and development) Nextra Partners Advanced Intelligence, MARSEILLE France Permanent contract validated at the end of the first trial period. My work at Nextra Partners includes, but is not limited to the following topics :</p> <ul style="list-style-type: none"> > Explainable Artificial Intelligence : Worked on a research project that aims at investigating the intersection between semantic web technologies and AI models. The main aim was to create an explainable AI platform for a specific use case. > Expert at the European Telecommunications Standards Institute (ETSI) : Worked on different proposals and projects proposed by ETSI. The selection of these projects is based on submitting proposals and passing a jury selection. Out of 3 proposals I have submitted, 2 of them were successfully accepted. > Technical auditor : Worked as a technical auditor where I interviewed, examined, and evaluated the technical aspects (data architecture, methodology, and working pipelines, etc.) for companies that work on different topics related to artificial intelligence.
February 2020 December 2020	<p>Research and Development Engineer École des Mines de Saint-Étienne , SAINT-ÉTIENNE France</p> <ul style="list-style-type: none"> > Part of Specialist Task Force 578 (STF-578) <ul style="list-style-type: none"> > Main aim is to develop a multi-tests pipeline that is used to check the development guidelines for the Smart Applications REFERENCE Ontology, and extensions (SAREF) as specified by ETSI Technical Specification TS 103 673 v1.1.1. “SAREF Development Framework and Workflow, Streamlining the Development of SAREF and its Extensions”. > Available at : https://saref.etsi.org/ > Contribute to SPARQL-generate project <ul style="list-style-type: none"> > Available at : https://ci.mines-stetienne.fr/sparql-generate/
December 2016 December 2019	<p>PhD researcher Laboratoire Hubert Curien, SAINT-ÉTIENNE France</p> <ul style="list-style-type: none"> > PhD researcher in the semantic web domain. > Mainly worked on my PhD thesis project. > More information about related publications are available at the publications section.
October 2017 November 2017	<p>Invited researcher (Semantic web) Fraunhofer-Institut für Intelligente Analyse- und Informationssysteme, SANKT AUGUSTIN Germany</p> <ul style="list-style-type: none"> > Project title : “Collaborative ontology engineering”
June 2015 May 2016	<p>Natural Language Processing (NLP) Researcher Jordan University of Science and Technology, IRBID Jordan</p> <ul style="list-style-type: none"> > Worked on different topics related to NLP, mainly : Aspect based sentiment Analysis, Events Extraction, and Named Entity Disambiguation. > More information about related publications are available at the publications section.

OTHER EXPERIENCE

ETSI's projects	<p>Serve as an expert for the European Telecommunications Standards Institute (ETSI STFs), mainly :</p> <ul style="list-style-type: none"> > Part of Specialist Task Force 578 (STF-578) <ul style="list-style-type: none"> > Main aim is to develop a multi-tests pipeline that is used to check the development guidelines for the Smart Applications REFERENCE Ontology, and extensions (SAREF) as specified by ETSI Technical Specification TS 103 673 v1.1.1. “SAREF Development Framework and Workflow, Streamlining the Development of SAREF and its Extensions”. > Available at : https://portal.etsi.org/STF/STFs/STF-Homepages/STF578 > Part of Specialist Task Force 604 (STF 604) <ul style="list-style-type: none"> > Main aim is to develop and extend existing terminologies that are related to the ICT domain. > Available at : https://portal.etsi.org/STF/STFs/STF-Homepages/STF604.
Task organizer	<p>SemEval-2016, INTERNATIONAL WORKSHOP ON SEMANTIC EVALUATION 2016</p> <ul style="list-style-type: none"> > One of the organizers for Multilingual Datasets Support for Arabic team > Task : Preparation and support for the Arabic Dataset for Task 5 : Aspect-Based Sentiment Analysis

Reviewer | Serve as a reviewer for the following conferences, journals, and competitions :
> Artificial Intelligence Review : An International Science and Engineering Journal
> International Workshop on Semantic Evaluation (SemEval-2016)
> International workshop on Big Data and Social Networking Management and Security (BDSN)
> International Conference on Information and Communication Systems (ICICS)

TPC member | Serve as a tpc for the following events, 2016-2017 :
> SNAMS 2016 : The 3rd International Symposium on Social Networks Analysis, Management and Security
> ICICS2017 (The 8th International Conference on Information and Communication Systems)

AWARDS AND ACTIVITIES

AWARDS :

- > Best poster award given by the ASEC association at the poster session of the day of research in University of Lyon 14 Jun 2018.
- > The International Semantic Web Research School (ISWS 2018) 1-7 Jul 2018 (Attended with a full scholarship to cover the expenses (estimated amount 900 euros).

SCIENTIFIC ACTIVITIES : I presented scientific articles or demos in the following events :

- > Statlearn 2017 workshop in Lyon 5-7 APR 2017.
- > The Web Intelligence summer school (WISS) in Saint-Etienne, France 3-7 JUL 2017.
- > Invited speaker at the ontology group at IRSTEA-centre de Clermont-Ferrand. Presentation title : Collaborative ontology Development : focus on bootstrapping capabilities.
- > Extended Semantic Web Conference (ESWC 2018) in Heraklion, Greece 3-7 JUN 2018.
- > The Fifth International Conference on Social Networks Analysis Management and Security (SNAMS-2018) in Valencia, Spain 15-18 OCT 2018.
- > 21st International Conference on Knowledge Engineering and Knowledge Management (EKAW-2018) in Nancy, France 12-16 NOV 2018.
- > LDK 2019 – 2nd Conference on Language, Data and Knowledge in Leipzig, Germany 20-23 May 2019.
- > KEOD 2019 – the 11th International Joint Conference on Knowledge Discovery, Knowledge Engineering and Knowledge Management 17-19 SEP 2019.

LANGUAGES

ARABIC : Mothertongue
ENGLISH : Full professional proficiency
FRENCH : Medium professional proficiency (DELTA -B1)
