Critical thinking and problem solving

Critical thinking and problem solving

- A micro-credential is a certification of assessed learning that is additional, alternate, complementary to or a formal component of a formal qualification.
- The KTSBT micro-credential program will provide students to acquire relevant digital and human skills that qualify them to distinguish themselves, academically and professionally.
- Upon completion of a micro-credential program, students receive a micro-credential passport that indicates their achievement and the specific skills, knowledge, or competencies they have gained.

Knowledge-based MC
