Where can I go?

You can choose from almost 50 universities in 29 countries around the world. Some of the agreements are university-wide, while others are restricted to specific disciplines.

How much will it cost?

Under the exchange program, tuition fees at the host university are waived while you remain enrolled at and pay fees to PSUT. You will be responsible for paying your own airfares, accommodation and living costs. It is recommended that you budget €1,000 for your semester overseas.

Under the Erasmus ICM program, there are no fees to be paid. You will receive a monthly allowance in addition to travel costs.

Funding

Depending upon the program selected, grants offered to students may cover all exchange expenses, or they may only cover certain parts of the expenses. Please check details provided on each specific call for application.

Expenses include one or more of the following:

- Fees for specific extra courses
- Travel expenses
- Monthly allowance (to cover accommodation, food, local transport)
- Medical & travel insurance
- Visa fees

Am I eligible?

The exchange regulations permit PSUT students to study up to 40 credit hours at another recognized university. These hours will be counted towards the student's degree providing they passed these courses with an average score of 68% (or 2.0/4.0) based on the following criteria:

1. Students should have passed 40 credit hours at PSUT, with a minimum cumulative average of 68%.
2. Students should enroll for study at a university that requires learning by attendance.
3. Each student should get written approval from his/her departmental board on the courses he/she intends to study at the host university.
4. The total number of transferable credits should not exceed 50% of the credit hours in the relevant major study plan.
5. The student is not permitted to take these courses in the last two semesters of his/her study at PSUT.

Note: For more information contact: International Relations Office (IRO)

To apply:

Students should follow the instructions in the call for application related to a specific mobility grant available from the Exchange Unit. Although PSUT staff will assist and support students to understand and to clarify internal instructions, filling in the application is entirely the responsibility of the student.

Students must present all required documents, such as transcripts and certificates, get approval from their academic supervisor (or head of department), contact the Exchange Unit (IRO) for approvals and apply for the grant.

When can I apply?

31 July (for exchange in Semester 1 of the following year)

31 October (for exchange in Semester 2 of the following year)

Learning Agreement:

Selected students are required to sign a learning agreement together with their head of department taking into consideration the University Regulations and Learning Policy. The representative of the host institution should approve this agreement as well. This learning agreement specifies the courses that the student will take at the host institution. Upon his/her return to PSUT, these courses will be recognized if he/she passed the courses with the required marks. Any amendments made by the student should be approved by PSUT.

Student Exchange Guide

Student exchange

Our mission is to offer a unique experience of living and studying in another culture and to enable young people to develop skills and awareness that will enhance their future potential.

An exchange involves a formal agreement between PSUT and an international university that allows us to exchange students each year. A PSUT student can take courses on exchange at one of our partner universities and transfer credits back to their degree when they return.

We have student exchange programs with a number of foreign universities under several schemes including Erasmus+, ICM program and Melevana (Turkey), some of which are listed here. PSUT also assists students to enroll in such programs. These exchange programs enrich students' knowledge of global best practices in education and other fields.

Living-overseas for anything from two to twelve months, you'll be placed with a host family and attend a local school. You'll live like a local and become immersed in the culture. You'll learn the language and gain valuable international experience. You'll learn a lot about yourself.
