EDUCATION

Year	Degree	Major	Institution
2001	Ph. D.	Chemical & Materials Engineering	The University of Auckland, NZ
1981	M. Sc.	Physics	Baghdad University, Iraq
1978	B. Sc.	Physics	Al-Mustansiriya University, Iraq

ACADEMIC POSITIONS

Year	Academic Title	Institution
2022 – Present	Professor	Princess Sumaya University, Jordan
2009 – 2022	Associate Professor	Princess Sumaya University, Jordan
2008 – 2009	Associate Professor	Curtin University of Technology in Miri (Aus. Univ.)
2001 – 2006	Senior Research Scientist & Teaching, Dept. of Chemical & Materials Eng.	University of Auckland, Auckland, NZ

ADMINISTRATIVE POSITIONS

Year	Title	Institution
2009 – 2011	Consultant	Royal Scientific Society RSS, Jordan
2009 – 2012	OTR and Service Manager	Albanna Scientific Group for Trading, GEHC, Jordan
2008 – 2009	BB Advisor (Higher Education)	United States Department of State.
2004 – 2008	Consultant & Management	Software Design Ltd., Auckland, NZ
1991 – 1995	Technical Manager	Private Factory, Baghdad, Iraq
1983 – 1990	Senior Research Fellow & Head of Solar Physics Laboratories	Solar Energy Research Center, Iraqi Scientific Research Council, Baghdad, Iraq
1978 – 1981	M.Sc. Study & Research	Iraqi Atomic Energy Agency (I.A.E.A.), Baghdad, Iraq.

------	------	--------------------------------

2018-2024 Tens of committees on the level of RSS, PSUT, KTFBT and department such as:

- Committee Member in the Ministry of Higher Education (Change in Weather, Global Warming, Pollution, and Renewable Energy) for approving the grants for the researches submitted by the universities and research institutions.
- Scientific committees on a level of department and Faculty.
- Promotions committee for staff members
- AACSB committees. AACSB Final Evaluation Report on Business Standard 12 - TEACHING EFFECTIVENESS
- Giving lectures to universities out of Jordan for the Institute of International Education IIE in Washington.
- Present the PSUT in different conferences, workshop and dialogue on environment.
- Member of MSc student exam committee
- Cooperate with Jordanian Civil Defense Army in the area of Computational Fluid Dynamics (CFD) Applications.
- Editorial board of several journals and conferences.
- Editorial board of several journals and conferences.
- Keynote speaker and chair session for several international conferences.
- Examiner of postgraduates out of Jordan.
- Member of Deanship Post Graduate Committee
- Member of University Health Committee
- Member in the faculty journal committee.
- Faculty representative in University Council.
- Member of three Committees of Quality Assurance (Academic Programs, Governance, Scientific Research)
- Orientation Day presentation with thank letter from the university president.

- Member of Deanship Postgraduate Committee.
- Editorial Membership of Science Publishing Group, ID 10477650 in 2020.
- Editorial Membership of American Journal of Agriculture and Forestry in 2020.
- Editorial Membership of American Journal of Agriculture and Forestry in 2020

Live lectures to the Institute of International Education (IIE) in Washington. Weekly lectures from PSUT to Staff and Post Graduate Students of Different Universities in Iraq.

The end of Iraq's 2018 spring academic semester marks the completion of three university courses that were co-developed and co-taught by IIE-SRF Iraqi scholars in Jordan and Turkey. This pilot initiative, the IIE-SRF Joint University Courses Project, aims to fill expertise gaps at participating Iraqi universities and expose them to professors from international academic environments. It supports semester-long university courses that are jointly delivered by IIE-SRF Iraqi scholars outside Iraq and professors inside Iraq, with a focus on newly established and remote universities. The project was implemented in partnership with the Iraqi Ministry of Higher Education & Scientific Research (MoHESR)'s IIE Coordination Committee.

The pilot courses began in February 2018. Dr. Abdul Ghani Albaali, a scholar of chemical engineering who, in 2009 to 2011, undertook IIE-SRF fellowships at Princess Sumaya University of Technology in Amman, Jordan, delivered undergraduate- and graduate-level courses on statistical analysis to Al-Karkh University of Science and University of Misan, respectively.

Basic Information

About me

Ghani Alabaal, Ph.D. in Chemical Engineering, 2005, The Univ. of Auckland, NZ, New Zealand citizen, born in Baghdad - Iraq. Currently working as a Visiting Professor/Pinnacol Surveys University for Tech in Amman, Jordan.

PUBLICATIONS: More than 600 published papers, books, and chapters in books.

Developed several computer models for the first time in the areas of Heat & Mass Transfer, High Pressure Processing of Food, and Food Processing Engineering. These works are published in International Journals and presented at several International Conferences in USA, Australia, France, Japan, Mexico, Turkey, Italy, Canada, Jordan, Iraq, and New Zealand.

A reviewer of several international Books and Journals.

Attended several training courses in the US, Italy, Germany, Australia, New Zealand, Iraq, and Jordan.

One of the international well-known figures in the field of using Computational Fluid Dynamics (CFD) in Food Engineering Applications.

CONFERENCE SPEAKERS

Invited Speaker I:

Assoc. Prof. Abdul Ghani Albaali,
Princess Sumaya University for Technology, Jordan

Dr. Ghani Albaali was born in Baghdad, Iraq, and holds New Zealand citizenship. In 2001, he earned a PhD in Chemical Engineering from the University of Auckland, NZ, where he was awarded the Best Doctoral Thesis in the Faculty of Engineering for the year 2001. He is currently working as an Associate Professor at Princess Sumaya University for Technology in Amman, Jordan. Dr. Albaali's areas of expertise include Heat & Mass Transfer, Computational Fluid Dynamics (CFD), Numerical Analysis, Computer Simulations, Mathematical Modeling, Environment Engineering and Technology, Renewable Energy, Solar Energy, Energy Conversion, Fluid Mechanics, Physics, Advanced Mathematics, Thermal Sterilization of Food, High Pressure Processing, Food Processing Engineering, Research Methodology, Data Analysis, and Statistics. Dr. Albaali is the author of more than 180 published papers, books and book chapters in these areas. Dr. Albaali has developed several original computer models in the areas of Heat & Mass Transfer, High Pressure Processing of Food, and Food Processing Engineering. These works have been published in a number of international journals and presented at several international conferences (USA, Australia, France, Japan, Mexico, Turkey, Italy, Canada, Jordan, Iraq, and New Zealand). He is currently a reviewer of several international books and journals, and has attended numerous training courses in the US, Italy, Germany, Australia, New Zealand, Iraq and Jordan. Dr. Albaali is a prominent figure on the international scene in the field of using Computational Fluid Dynamics (CFD) in Food Engineering Applications. He was awarded a Post Doctoral Fellowship (Sept. 2002 - Aug. 2006) from the New Zealand Foundation of Research Science and Technology. Dr. Albaali is listed in the "Who's Who in Science and Engineering", 7th Edition, 2003-2004 and 23rd Edition in 2005 & 2006, as well as "The Chronicle of Higher Achievements", NJ, USA. He has been named Outstanding Scientist by IBC, Cambridge, England, and is among the Great Minds of the 21st Century for his accomplishments, ideas and contribution to the field of Science, (ABI, North Carolina 27622 USA). http://www.amazon.com/A.G.-Abdul-Ghani-Al-Baali/e/B00426S2X4?ref_rfp_1724030_132998060

Thank you for being a reviewer

Dear Ghani Albaali,

The exceptional developments of last year reconfirmed the critical importance of peer review and we want to express our gratitude for your work as a referee.

Without your tireless efforts, it would have been impossible to publish so many high-quality papers that have advanced human knowledge in this uncertain time. And without your dedication, we would never have been able to share those findings as rapidly.

Once again, thank you for your ongoing support. Let us close by sending our very best regards to you and your family and wishing you well for the year ahead.

With best wishes,

We would encourage you to visit our newly-launched [Elsevier Reviewer Hub](#):

Prof. Ghani Alabaali

Biography:
Ghani Alabaali, PhD in Chemical Engineering, The Univ. of Auckland, NZ
New Zealand citizen, born in Baghdad - Iraq
Currently working as a Visiting Professor/Princess Sumaya University for Tech in Amman, Jordan.

THE EXPERTISE: Heat & Mass Transfer, Computational Fluid Dynamics (CFD), Numerical Analysis, Computer Simulations, Mathematical Modeling, Environmental Engineering and Technology, Renewable Energy, Fluid Mechanics, and Food Processing Engineering.

PUBLICATIONS: More than 250 published papers, books and chapters in the above areas.
Developed several computer models (for the first time) in the areas of Heat & Mass Transfer, High Pressure Processing of Food, and Food Processing Engineering. These works are published in international journals and presented in several international conferences (USA, Australia, France, Japan, Mexico, Turkey, Italy, Canada, Jordan, Iraq, and New Zealand).
Attended several training courses in US, Italy, Germany, Australia, New Zealand, Iraq and Jordan.
Reviewer of several international Books and Journals.

Speech title: Using Computational Fluid Dynamics in the Processing Engineering

Abstract:
Computational fluid dynamics (CFD) offers a powerful design and investigative tool to process engineers. Its application would assist in a better understanding of the complex physical mechanisms that govern the thermal, physical, and rheological properties of different materials.

Computational Fluid Dynamics (CFD) is a numerical technique, used for the solution of the equations governing fluid flow and heat transfer problems inside a defined flow. CFD has wide applications in the areas of fluid and heat transfer within the aerospace and nuclear industries backed by the availability of powerful supercomputers. CFD has also expanded into other industries such as chemical and petrochemical, food industry, etc.

The development of CFD packages came from the need to create computer programs of general nature capable of solving these equations for a wide range of geometry and boundary conditions. CFD works by dividing the physical environment of interest into a two or three-dimensional grid or mesh. It contains a number of discrete cells and can evaluate fluid velocities, temperature, and pressure inside every one of the cells where fluid flows. This is done by the simultaneous solution of the equations describing fluid flow, heat, and mass transfer.

The use of CFD techniques to solve a fluid flow and heat transfer problem is split into three discrete parts: problem definition, solution, and presentation of results. In general, different computer programs that form the CFD code must undertake each of the three tasks.

Dr. Al Baali has delivered the most joint courses and live lectures of any IIE-SRF scholar participant in the DLJ, sharing his expertise on topics ranging from the economics of engineering to the fundamentals of scientific research. He has delivered many of his lectures from the campus of Jordan's Princess Sumaya University for Technology (PSUT), where he undertook IIE-SRF fellowships from 2009 to 2011 and is now an associate professor. PSUT has been instrumental to the success of the DLJ project, enabling multiple scholars in Jordan to deliver live-streamed lectures from its campus.

Thank you for being a reviewer

Dear Ghani Albaali,

Peer review – and reviewers – are at the heart of the academic publishing process. The exceptional challenges we have all faced during the last two years have reconfirmed the critical importance of peer review. We would like to express our deepest gratitude for volunteering your time and expertise as a reviewer.

Letter from the Elsevier Journals Leadership Team

“Peer review is critical to improving the quality of published global research. Yet it is often an unseen and thankless task. The global COVID pandemic has made it increasingly more difficult to juggle professional and personal commitments. Providing a voluntary service, such as peer review, under challenging circumstances is truly a dedication to your community and the advancement of research in your field.

It is an honour for me to acknowledge your commitment by saying ‘thank you’. On behalf of all our journal editorial teams, we are indebted to the time you voluntarily dedicate to supporting our journal(s). Over the course of 2022, we will continue to improve the peer review process for you and your fellow reviewers by making sure we offer optimal support through our systems and staff, and further improve the relevancy of the papers you are asked to review.

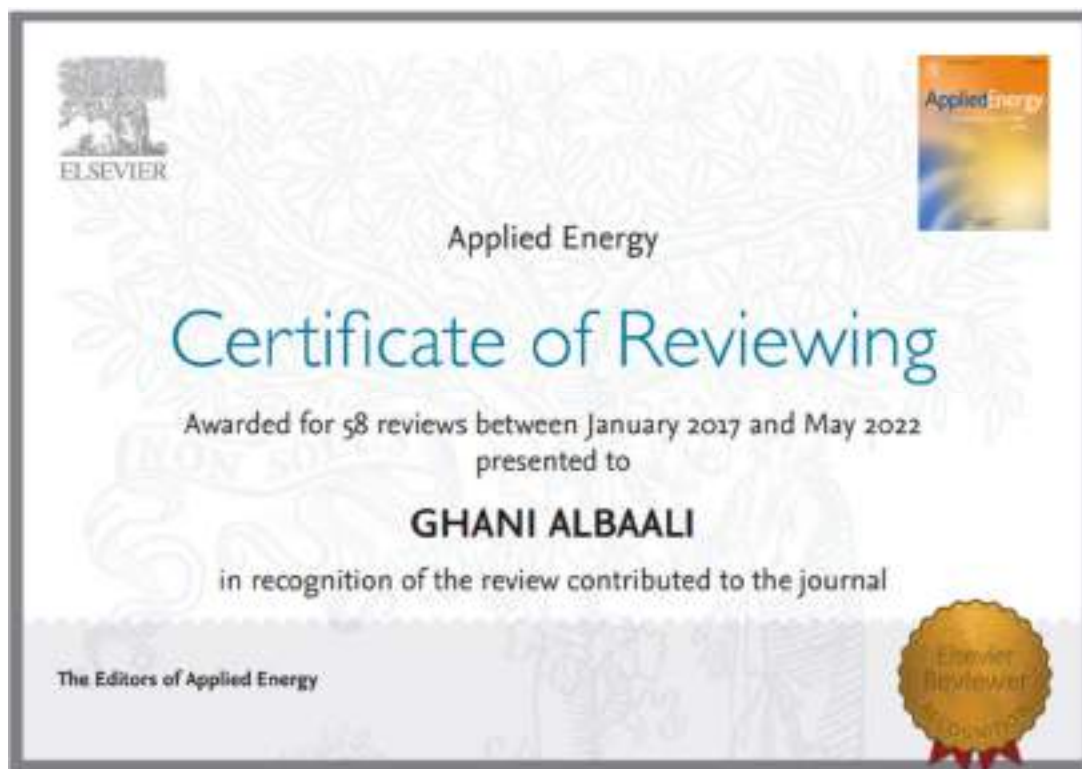

Thank you for volunteering your valuable time to peer review.”

International Technical Committee

Invitation Letter

Dear Prof. Ghani Albuali,
 Princess Sumaya University for Technology, Amman, Jordan

2022 4th International Conference on Engineering Education and Innovation (ICEEI 2022) is an optimal platform for academic communications, exchange of ideas and inspirations between specialists and scholars in the fields of education and innovation, including for issues such as vocational education, applied psychology, innovation economy and innovative research.

2022 4th International Conference on Engineering Education and Innovation (ICEEI 2022) will take place in Hanoi, Vietnam during December 16-18, 2022, co-sponsored by Vietnam Institute of Building Materials, technical supported by Innovation Centre for Engineering Education at Seoul National University. From 2015, ICEEI has been held successfully in Seoul (2015, South Korea) and Virtual Conferences (2020&2021, due to COVID-19).

On behalf of the organizing committee, I would be sincerely inviting you to serve as one of the International Technical Committees of ICEEI 2022.

For your internationally outstanding research, we believe that your participation will be among the highlight of the conference. What's more, all the attendees of the conference will benefit from you. Welcome you to visit Hanoi, Vietnam.

Looking forward to receiving your reply!

Thank you in advance!

Best regards,

Ms. Dana Chen
 Conference Coordinator

Dear Prof. Ghani Albaali,

Wish you all well.

2024 4th International Conference on Electronics, Circuits and Information Engineering (ECIE 2024) will be held from 1st to 3rd, March 2024 in Rouming, China. ECIE 2024 is an international forum for scientists, engineers, and practitioners to present their latest research and development results in all areas of Electronics, Circuits, and Information Engineering. Conference topics mainly include but are not limited to Software engineering, Power and energy circuits, Optoelectronics, Single-chip microcomputer technology, etc. For your excellent experience and work in this field, we sincerely invite you to be keynote speaker of ECIE 2024.

As keynote speaker, you can enjoy the following service.

Requirement: professor related to conference field

- (1) Be awarded a certificate of keynote speaker.
- (2) We will provide free accommodation and meals during the conference (March 1&2, 2024) for two nights.
- (3) Get a discount for paper submission and publication service.

Keynote speech last for 40-45 min, speech language is mainly in English. If you are interested in joining us, please kindly send your **CV** firstly (include a brief biography and personal photo). Once accepted we will inform your detail information, and reply within three days.

Dear Prof. Dr. Ghani Albaali,

We are glad to inform you that your name has been approved by the editorial committee as a board member. Thanks for CV and photograph and will appreciate if you also send Whatsapp/Mobile number. Let me honestly explain you that we already have a number of editorial board members but some are not actively participating in the journal affairs but we trust that you will contribute in the Journal. We are continually publishing quality articles since the journal has been started. Presently we are member of Copyright Clearance and CrossRef.

Now our goal is to get the journal indexed in SCOPUS, EMBASE and SCI. For this purpose we need your support as these agencies are required 10 recent published articles for evaluation by their content advisory selection committee(CASB). Our team is working day and night since 2013 and completed 6 volumes. We request you to help us in the form of submission of your valuable article **only one time basis**. Please send your article until 5th November 2019 or earlier and we promise that we will not ask again in future.

Although it is not compulsory but we request you to support the Journal only this time and let us know tentative date of submission. We will submit the journal during Jan/Feb 2020 in the mentioned agencies.

Dear Dr. Al Baili and Celine,

On behalf of Fourth Grade students in the Chemical Engineering Department, Tikrit University, I would like to thank you for delivering and supporting the virtual classes of Reactor Design for the last two weeks. I received very impressive feedback from the students and their experience was great with the series.

Your outstanding efforts are highly appreciated and we are looking forward for continuous cooperation.

3rd International Conference on Astronomy and Space Science May 02-03, 2019 | London, UK

Dear Colleague,

Good Day!

We contacted you by email earlier, as we have not yet received any response from you regarding your participation as a speaker and submission of abstract to Astronomy 2019, we are re-sending this mail as we are aware that you may be busy with your other activities or the previous E-mail may not have successfully reached you.

We are pleased to invite you for the "3rd International Conference on Astronomy and Space Science" scheduled from 02 to 03 May, 2019 in London, UK. The theme of the conference is "Exploring the Energetic Universe". The conference includes keynote, plenary, oral and poster presentations.

Your knowledge and prowess in the area will add a great value to the conference and help the growing researchers and students to know more about the recent advancement.

For further Details refer to our Conference website: [Astronomy Conferences](#)

Looking for your positive response regarding the participation

Yours Sincerely,

Speaker invitation of conference in Japan

Global Conference on **Magnetism and Magnetic Materials**

July 23-25, 2018 Osaka, Japan

Date: December 22 2017

Letter of Invitation

Dr. A. Ghani Albaali,
Princess Sumaya University for Technology, Jordan

Greetings from Scientific Federation!

We cordially invite you to attend the annual "Global Conference on Magnetism and Magnetic Materials" to be held during July 23-25, 2018 in Osaka, Japan. On behalf of organizing committee we welcome you to join us as a speaker and share your knowledge and views on the theme "An Exemplary Conglomerate to savor the Research in Magnetism and Magnetic Materials".

The Global Conference on Magnetism and Magnetic Materials is being conducted at Osaka, Japan. Magnetism and Magnetic Materials is a scientific congregation brings together researchers, scientists, key decision makers, and industry professionals in the same physical space for a brief yet intense period of discussion, collaboration, and addressing related problems in research.

We believe this conference will be a highly rewarding educational and networking experience for all. Additionally, we encourage you to take this opportunity to explore the many facets of Osaka and to experience the unique Japan culture.

We look forward to seeing you in Osaka, Japan.
