#### C. Teaching Innovation and Recognition

Developed and implemented a structured hybrid curriculum combining synchronous oncampus lectures with asynchronous digital modules, including recorded lectures, video analyses, and independent exercises reinforcing core concepts in marketing.

Revised course frameworks for *Product & Brand Management* and *Sales Management* to align with SDG 4 (Quality Education) and SDG 17 (Partnerships for the Goals), embedding ethical and sustainable business practices.

Designed a "Synchronous–Asynchronous" model: students independently engage with theory through digital materials, while in-class sessions focus on applied learning and real-time discussion.

Integrated case-based pedagogy, enabling students to evaluate real-world brand and market scenarios and develop strategic interventions.

Implemented collaborative project-based learning, requiring team research, strategic solution design, and formal presentations to strengthen professional communication skills.
